

Vassar Student Association Resolution 27-1
A Resolution in Support of the Diversification of Campus Programming

WHEREAS, the 27th Vassar Student Association Council (“the Council”) wishes, as its first official act of business, to recognize the wide range of interests and passions that Vassar students bring to campus. We feel that it is the job of this Council to work with these students and campus organizations in order to create more diverse programming.

WHEREAS, the Council recognizes the importance of programming to student life given our residential and campus centered nature.

WHEREAS, the Council recognizes the findings of the Alcohol Task Force and the 2012 programming survey that show an increased demand for diverse programming.

WHEREAS, the Council recognizes the institution of a Programming Board as an important first step in addressing this campus need.

NOW, THEREFORE, this Council, in accordance with its Constitution, Bylaws, and/or other governing documents resolves, this 29th day of April, 2012, to dedicate itself to expanding programming into Poughkeepsie and the city; encouraging programming in the 10pm-2am time period that goes beyond all-campus dance parties; and devoting VSA funds to collaborations, innovative ideas, and utilizing more spaces around campus

On behalf of the Vassar Student Association.
